DRAFTER OF GAS FRANCHISE SAYS COMPANY IS BLUFFING

Aggressive Attack Should be Started Now, Says Mueller

Councilman Cautle Says 'Clique' Aims to 'Get' Candidate for State Senator After Gas Fight Is Finished—Councilman Halpin Attacks Mayor Jones on City Issues

By OTTO MISCHKA

Martin Mueller, former Elyria service director who assisted in the original drafting of the present gas franchise, believes that if the City Council has the interest of the gas users at heart they will ignore an application for an increase in rates and start an offensive by bringing legal action to compel the Gas Company to fulfill its provisions in the franchise.

"We labored nights for many months in drafting the gas franchise," said Mr. Mueller. "At the time we thought we had safeguarded the interests of the city. My only regret is that we limited the forfeiture bond to $10,000 and believe it should have been made $100,000 or $200,000 which would have prevented the present dilly-dallying."

"A new ordinance would eliminate up to $300 a year on free gas used in the city han bunches," declared Mr. Mueller. "It would be an outrage to stop saving this amount to the tax payers. Provisions in the franchise we drafted provided for a certain amount of heat units, necessary extension of gas mains and artificial gas in the event that there even is a temporary fall down in the natural gas supply. The gas with the present council mocks these provisions. The present council has no right to change the present franchise which has eight years to operate and instead should bring court action to compell the gas company to fulfill its obligations."

"If I were a member of the city council the gas company wouldn't get very far with the outrageous tactics they are using," continued Mr. Mueller. Are the council members frightened, confused smeared over by the company, or what?"

Looked After Interest

"We looked after the interest of the gas users," said Mr. Mueller "We made tests of the heat units in the gas at intervals and saw to it that the gas users not only received sufficient gas, but that the necessary gas main extensions were made and that the gas tested up to the standard as provided in the franchise. The least violation on the part of the gas company, and they would have heard from us. The city is not under obligation to the gas company but rather the gas company is under obligation to the city. Let the gas company fulfill its obligation and then after the franchise has expired eight years hence show us where they are entitled to an increase in rates."

"It seems to me that if the city officials were looking out for the city of Elyria and the gas users instead of the gas company that they would have the gas annalyzed periodically to ascertain where the gas users were getting gas with the proper number of heat units," said Mr. Mueller. "The analysis to determine the number of heat units if the gas costs us $10 or $15 and not several hundred dollars as Mr. Adams said. The records of the costs is in the office of the service director and I consider the money well spent. We got the results from he gas company and saw that the interests of the city were properly safeguarded."

"One issue of your blamed paper has caused me more worry and trouble than I have ever expected to have in my life," said Councilman F. R. Cautle. "Over fifty people called me up over the phone and got me out of bed at all hours of the night. It it wasn't for being in the middle of a fight I'd resign as councilman but I'm not a quitter under fire."

Going After Jones and Burke

"Just as soon as this gas fight is over we're going after Jones (mayor) and Burke (meaning Mr. J. F. Burke, managing editor of the Chronicle-Telegram) for going after us. You know Burke is running for State Senator and we are going to get him. And we'll get Jones too when he runs for re-election. Watch our smoke just as soon as this gas fight is over."

"You know very well that we are holding out for a guaranteed four ounce pressure," said councilman Cautle. Cautle believes that the gas company has the city helpless and that a raise in rates will have to be granted. In the estimation of Mr. Cautle the council's only hope is to get as good as the gas company will see fit to give in granting the increase in rates.

Says Citizens Are Protesting

Councilman Cautle said that the other councilmen also complained that residets of the city are registering a stormy protest against granting an increase in rates. The complaints are largely made by telephone calls, the councilmen said.

"We get hell if don't pass the franchise for an increase in rates

DO SOMETHING

To the City Council:

Elyria is being discriminated against by the Gas Company. It is not getting its share of the gas or pressure. This fall and winter, there is bound to be acute suffering for our people. It should not be permitted. The danger to health and even life is too great.

The Gas Company says, "Raise the price, and we will equalize the pressure."

Equity and the law say the company may be foced to treat all cities alike.

The people want gas, and they should have it, one way or the other. But they should and must have it.

Members of the City Council, either force the Gas Company to be square or hire them to be square by raising the rate.

BUT DO IT NOW!

LEADERS REACH COLUMBUS FOR OHIO CONCLAVE

Will Draft State Platform and Choose Presidential Electors — Harding Demonstration in Order

Columbus, June 28—Harmonizing the various elements of the Republican party with a special view to eradicating any ill feeling that cropped out during the Harding-Wood primary fight promises to be the chief function of the Republican state convention which convenes here tomorrow, outside the routine of adopting a platform and selecting presidental electors. Even in the adoption of a platform, and selection of delegates, the harmony idea probably will be uppermost in the minds of leaders.

One of the big strokes in the harmony program now being planned, is expected to results in the selection of Harry M. Daugherty, Senator Harding's pre-convention campaign manager, and William H Boyd of Cleveland, a Wood delegate at large to the Chicago convention, as the state's presidential electors at large. Plans now being arranged also call for Daugherty and Boyd to address the convention, probably at the opening session tomorrow.

Having all the delegates to the Chicago convention as special convention guests, also is a part of the harmony program. Carrying the idea still farther, Myers Y. Cooper of Cincinnati, one of the Cincinnati district delegates who broke away from Harding at the Chicago convention to support General Wood until the Harding landslide was under way, will entertain the forty-eight delegates at a dinner tomorrow. It was announced today by Secretary Buck-

Few of the candidates for nomination for state offices had arrived up to noon today though their headquarters at the Neil house were ready to receive them. Most of them are expected to arrive during the night or early tomorrow morning. Practically every candidate has headquarters in readiness in the Neil house, which is fast taking on the convention's airs.

Senator Watson of Indiana, who is to deliver the principal address at tomorrow nig t's rally, is expected t arrive tomorow afternoon

W. H. Boyd of Cleveland, Wood delegate to the Chicago Republican convention, will deliver a "harmony" address before the Republican state convention here tomorrow, if a suggestion emanating from the headquarters of Harry L. Davis of Cleveland, a candidate for governor, is carried out. It also has been suggested that Harry M. Daugherty, pre-convention campaign manager for Senator Harding, address the convention. Mr. Boyd defeated Mr. Daugherty for delegate at large in the primary election last April.

As the proposal to have Mr. Boyd speak was made after the official program had been completed, it is said the Cleveland po-

COAL MEN ARE PROFITEERS SAYS LAUCK

Former Secretary of War Labor Board Makes Sweeping Charge Before Anthracite Coal Commission

Scranton, Pa., June 28—Charges of profiteering and monopolistic control in the anthracite coal industry were made before the anthracite coal commission today by W. Jett Lauck, former secretary of war labor board, and now consulting economist of the United Mine workers of America.

Mr. Lauck appeared in hearings on the demands of the anthracite worker for wage increases that will bring their earnings to a level with those of the bituminous workers, with a minimum wage of $6 a day. He said the data and exhibits he presented were all derived from and based on official and authoritative statistics and represented several weeks' work by a staff of experts.

"A survey of the anthracite industry," said Mr. Lauck, "shows an increase in net profits of the principal operators for the period of 1916-1918 over 1912-1914 of nearly 90 per cent as compared with an increase in production during this period of less than 12 per cent. In the case of seven representative mining companies there was an increase in net profits of 69.7 per cent. Expressed in terms of dollars the total net income for these companies advanced from an aggregate of $29,354,989 for the period 1912-1914 to $55,528,849 for the period 1916 to 1918, an increase of $26.173,860 or 89.2 per cent.

"The net income earned by these companies on their capital

The condition of young Dunham today at Memorial hospital is held to be critical. It is thought that his skull is fractured.

The trio were returning from Cleveland to Elyria when the accident occurred, details of which are lacking.

Municipal Well Is Again Condemned

The municipal well near the central fire station on Second St., is again condemned by City Chemist E. G. Curtis. Analysis shows the well to be contaminated, show symptoms of typhoid fever germs and the water unfit to drink. It is probable that this well, largely used by city firemen, may be permanently closed.

Fail to Find Thug

San Francisco Convention Hall Crowded as Delegates Take Seats at Noon Today

National Chairman Cummings Fires Opening Gun in Keynote Speech—Four Big Committees Ready to Get Down to Business—Convention Hall Is Simply Decorated

San Francisco, June 28.—Assembling at noon today for their first session, delegates to the Democratic National Convention heard a keynote speech by National Chairman Cummings, and perfected preliminaries clearing the way for the real work of finding a presidential candidate.

Twelve o'clock noon was fixed for the opening, but hours before ticket holders gathered in the spacious building which seats 12,000 persons. Those who did not hold tickets were barred from approaching the main entrance by fences hidden by a screen of California evergreens.

Decorations of the convention hall were simple and tasteful, with the Stars and Stripes as the dominant feature of the beautiful display.

The seats of the 1,092 delegates were compactly assembled close to the platform and stretched almost across the width of the hall. Here and there, stood the state and territorial standards, made of California redwood, showing the locations of the delegations. Directly behind were the seats of the alternates and all about them in almost perfect circle were places for more than 10,000 other persons.

With the exception of a patriotic touch given at the start by the presenting of the colors by a detachment of marines, the opening preliminaries were not unlike those of prior conventions.

With the prelimniaries over, the big four convention committees will propmtly get down to work. The greatest interest, as usual, centers in the committee on resolutions, where the party issues will be fought out with good prospects that some of them will reach the convention floor for final decision.

In the meantime managers of presidential booms keeping in touch with delegates and working for position in the early balloting.

San Francisco, June 28.—Delegates and leaders were prepared for a fight over both platform and candidates as the democratic national convention assembled today for its opening session.

The actual convention work itself was only preliminary and perfunctory, but the arrival of convention day served to bring further into the open the questions which had been dividing delegates and perplexing the elder politicians in their preconvention conferences. The keynote speech of Homer S. Cummings as temporary chairman was the principal feature of the day's program. Later in the day newly selected convention committees were to furnish the first real developments as they began their tasks of writing the platform hearing appeals from contests over delegate seats and making up the convention rules and a slate of permanent convention officers.

The livest subject in minds of the delegates manifestly was the impending prohibition fight, but talk of candidates was gaining more and more attention as the rival managers got down to cases with the big body of uninstructed and unpledged delegates.

Today for the first time the entire convention personnel was here and the opposing elements were taking definite bearings.

The latest turn of the McAdoo boom furnished a new angle to the convention preliminaries but its precise effect on the relative situation of the candidates was not yet clear. Announcement that the former secretary of the treasury, despite his declaration that he did not want the nomination on, would be willing to accept it, was variously accepted by the several elements in the fight.

By some it was declared the development meant that McAdoo, whose supporters hitherto had planned to keep him in the back ground for several ballots, now would be an active contender from the start and that in consequence the convention like that of the Republicans at Chicago, would have a big three running close together on the opening roll call. The possibility of such a development brought renewed claims of consistent gains from the supporters of Palmer and Cox and set the dark horses champing impatiently as they recalled what happened to the big three at Chicago.

The Palmer and Cox managers sought to discount the apparent significance of the McAdoo announcment which was made late last night by national committeemen Love of Texas without saying whether he had any direct authorization from Mr. McAdoo. It was apparent, however, that many of the McAdoo workers who have been canvassing for votes without much organization or system, accepted the statement of Mr. Love at its face value.

Among the best informed politicians the general opinion was that it still was too early to definitely forecast what would happen. They suggested that the Love statement only put the technical situation back where it was when Mr. McAdoo announced recently that he did not care to be considered a candidate. At that time both Attorney General Palmer and Governor Cox were active candidates and their supporters were claiming victory.

In the preconvention scramble for delgeates, many of those who had been McAdoo supporters promised to vote for other candidates, but the McAdoo men declared today that practically every one of these could be brought back into the fold.

There was frequent mention of Secretary Meredith of the agricultural department as a possible running mate for Mr. McAdoo. Mr. Meredith's presidential campaign headquarters were closed Saturday when he announced he was in no sense a candidate.

Discussion of candidates manifestly still was subordinate in the minds of many of the delegates to the prohibition issue, and they regarded the inevitable preliminaries of the opening session with impatience as they waited for the time when the differences of the wets and drys could be threshed out. It seemed a foregone conclusion that the question would be settled only after a stubborn fight on the floor, bringing into play the best oratorical and strategical fireworks of a typical democratic convention. The league of nations and the Irish question also threatened to get out of the control of the resolutions committee and show er the convention floor with pyrotechnics. There were many expressions of hope, however, that both might be threshed out to a satisfactory conclusion behind the committee doors.

In the organization of the resolutions committee itself a fight was brewing though it was not apparent how serious it becomes.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is mussy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

CLAIMS M'ADOO NOT CANDIDATE FOR PRESIDNT

Daugherty Testifies Elyrian Contributed $1,000 to Harding Campaign Fund

(By Associated Press)

Washington, May 28—Harry M. Daugherty, campaign manager for Ohio, was recalled to the witness stand today to testify further on presidential campaign expenditures in the inquiry being conducted by the senate committee.

On the list of contributors is A. G. Bean, Elyria, who is credited with $1,000.

Questioned by Senator Reed, the witness said two Ohio newspapers, the State Journal and the Columbus Dispatch, had supported Senator Harding at first, but later had supported General Wood. Senator Reed sought an explanation.

The committee also made further efforts to get light on what Chairman Kenyon described as "this invisible McAdoo boom."

Angus W. McLean of North Carolina, a director of the war finance corporation, was examined. He denied that he was "a sort of southern manager" for Mr. McAdoo's campaign but atempted to read a prepared statement.

ELYRIA GIRL RECEIVES HONORS AS SHE CLOSES HER COLLEGE STUDIES

Judge and Mrs. C. G. Washburn are receiving the congratulations of their friends on the honor recently won by their daughter, Miss Charlotte, who graduates this year from Holyoke college, South Hadley, Mass.

Miss Washburn has won through a most successful examination, a scholarship from New York's School of Social Service, this being one of the four awarded by this institution for the entire country and the fact of the Elyria girl's success in receiving one of the four coveted prizes is a matter of congratulation for not only Miss Washburn and family but for all Elyrians who take pride in the success of her people.

The prized scholarship will pay Miss Washburn's tuition and all school expenses in the School of Social Service for next year and as this Elyria girl anticipates following up this work after college days, she can be congratulated upon that one feature alone. The other graduates in the United States to win this scholarship are Ruth I. Voris, Leland Stanford university, California, 1920; Thos. C. Blaisdell, Jr., Pennsylvania State college, 1916, and Edward F. Frasier, Clark university, Iowa, 1920.

CHINESE PAGEANT PROVES UNIQUE ENTERTAINMENT

"We have experienced," remarked Rev. J. H. Grant at the close of the pageant given in the Gates room Thursday evening by Chinese students of Oberlin, "a brand new variety of emotions. There is no mind present so jaded or commonplace that it has not been profoundly impressed with the significance of that which we have witnessed." It was the universal sentiment.

A party of twenty young Chinese men and women from Oberlin college accompanied by Prof. P. D. Sherman and Miss Alice Williams were guests of the First Congregational church Friday evening for the presentation of a three act pageant, the playwrights being the students themselves. The Gates room stage was decorated with beautiful embroideries, handwrought pictures, and flags of the two nations, and among the properties were rare cloisonne vases.

The three episodes comprised "The Old Education," singsong in character and by rote and was amusingly depicted in a typical school room scene, the master, at the desk, the pupils under his vigilant eye. The second episode illustrated the new types of vocations being filled by the young educated women of China and embraced the Red Cross workers, the educator, doctor, social reformer.

Fervent patriotism broke out in the third episode which depicted the reaction of the students of China upon learning how they had been betrayed at the Peace Conference at Versailles by the Shantung ward, to their minds without justice or reason. There was much excitement, a parade of retalliation and high patriotic feeling displayed. The pageant was cleverly conceived and acted with a fine intelligence and dramatic ability which quite surprised the audience. With the conclusion of the play by the singing of the Chinese National anthem, the young women came down and mingled with the audience for delightful social intercourse.

"It is well," as one of the audience remarked, "that a group of Americans should occasionally see that clever ability, fine manners, good acting and personal charm live under yellow skins as well as white."

Among the out of town guests, were Mrs. Cora Carpenter, Mrs. Edward Hazen, Mrs. Fred Stang, Mrs William Hill, all of Lorain and Mrs. Benjamin Wade of Oberlin.

Mrs. Colby received many gifts and congratulations upon the occasion of her happy anniversary.

'NO MORE BABY FOOD FOR ME,' SAYS ERIE MAN

Declares that Ka-Vita Tonic has Mended his Indigestion so he can Eat Anything.

"No more baby food for me." This was the explanation of Stephen Boardwell, 755 Rosedale St., Erie.

"There was a time when I could keep only bread and milk on my stomach without suffering. But I can eat anything I like now without fear of indigestion, since Ka-Vita Tonic fixed me up so fine," he continued.

"My bowels were in bad shape and my appetite had gone back on me. My nerves were so bad that I could only sleep about half the night and felt worn out when I got up in the morning. I guess my kidneys were affected, too, because I was bothered with backache most of the time.

"You see I'm sixty seven years old, so I was mightily surprised and pleased at the quick results Ka-Vita Tonic brought me. My appetite is fine now my kidneys and bowels are regular; in fact I feel good all over. No medicine can equal Ka-Vita Tonic."

THIS NEGLIGEE FAR CRY FROM OVERALLS

Novel negligee worn by Gloria Swanson.

This elaborate negligee is everything that overalls are not. It is costly enough to make one gasp; it is becoming, it is perishable, it is impractical; but, oh, who wouldn't want to be Gloria Swanson and be able to wear it even for one tiny minute? Almost anybody would swear to wear overalls on the street forever if they could wear such a robe in the boudoir.

"LIKE BLOWING TROUBLES AWAY" SHE DECLARES

Mrs. Margaret Geiger Tells How Old Ailment

"This Ka-Vita Tonic is a wonderful medicine. I know because of the way it helped me," recently declared Mrs. Margaret Geiger, 2911 Maple street, Erie, Pa.

"I was troubled with constipation for quite some time and could obtain only temporary relief. Pains in my back bothered me and my side always felt sore. I had scarcely any appetite, and when I forced myself to eat the food didn't agree with me.

"This Ka-Vita tonic was recommended to me by so many people that at last I determined to try it. It acted like a charm; it was just like blowing the troubles away. My appetite perked up wonderfully, and my food gave me strength. The constipation has been corrected, and I feel so much better every way that I can't help telling all my friends how grateful I am for Ka-Vita Tonic."

Hundreds just like Mrs. Geiger go about day after day feeling worn out, listless, moody and discouraged, suffering pains and aches, loss of appetite, sleepless nights, and other miseries which are due to faulty digestion and clogged organs. Ka-Vita Tonic is for just such conditions, since it is a mild, cleansing, herbal tonic, absolutely free from alcohol and so-called habit-forming drugs. It in a few short days, restoring appetite and vigor that makes life worth living.

Ka-Vita Tonic is being distributed from Ebert's Drug Store in Elyria.—Adv.

London, May 82—William of Hohenzollern, former emperor of Germany, is trying his hand as a tailor, according to a Central News dispatch from Amsterdam. He is cutting out patterns for many new suits with which he is going to stock his wardrobe and the dispatch quotes a local newspaper as declaring he is "excellent at the job."

"How unfortunate it is," says this paper, "that William missed his vocation. After all the notoriety he achieved as an emperor, one can imagine what would have been his fame as a tailor."

Opening corn prices, which ranged from 3-8 to 1 3-4 lower; with July $1.67 to $1.67 1-2 and Sept. $1.54 1-2 to $1.55 1-2; were followed by a rapid upturn that carried July and September sharply above yesterday's finish. Oats hardened with corn. After opening unchanged to 3-4 lower including July 98 7-8, the market sagged a little further and then scored something of an advance.

Provisions were inactive. Owing to absence of demand quotations averaged lower.

OHIO MAN IS MODERN WIZARD

Discovers magic ether compound which loosens a corn so it lifts right out

Good news spreads rapidly and druggists here are kept busy dispensing freezone, the ether discovery of a Cincinati genius which is said to loosen any corn so it lifts out with the fingers

Ask at any pharmacy for a quarter ounce of freezone, which will cost very little but is said to be sufficient to rid one's feet of every hard or soft corn or callus

You apply just a few drops on the tender, aching corn and instantly the soreness is relieved and soon the corn is so shriveled that it lifts out without a particle of pain It is a sticky substance which dries when applied and never inflames or even irritates the adjoing tissue

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns

35 CENT HAIRCUT, 15 CENT SHAVE, PREDICTED

New York, May 28—Prices of shaves and haircuts in New York soon will be cut to 15c and 35c, respectively, according to L Worthall, general organizer of the international barbers union. The cut rates will be made in new barber shops which today will be opened by the barbers union or individual union members, he said

Barbers in the new places, he said, will receive the union scale of $30 a week, with 50 per cent of all earnings above receipts of $42, a week Tipping will not be barred. Thirty five cents will be the price also for a massage, shampoo single or manicure.

DINNER STORIES

"If you married my daughter how would you keep the wolf from the door?" asked her skeptical dad.

"I'd shoot him and collect the bounty on his scalp," replied the young hopeful.

After looking at all the rugs in the shop, the lady customer decided that she thought she liked the pink one with the purple roses best.

"But I'd like to see it in my room," she said. "I suppose you'll send it on approval?"

"Well, madam, it's—er—hardly usual," demurred the shopman. "But in the circumstances, perhaps"——

The customer's five-year-old daughter, who had stood silent during the long inspection, now tugged violently at her mother's skirt.

"Oh, mummy," she piped in her fatally clear treble, "hadn't you better warn him to be sure and get it there in time? Our party's tomorrow, you know."

"What would you do," asked the little girl who reads fairy tales, "if some stranger were to appear and promise to grant you three wishes?"

"I'd call a policeman," replied the modern boy. "He'd probably be some kind of a confidence man."

"The operator has given me the wrong number," said the man's voice.

"The number's all right," said the woman's voice. "The operator has given it to the wrong person."

15 EX-OBERLIN TEACHER PUBLISHER, WEDDED TO BUSINESS MANAGER

Greenwich, May 28—The Greenwich Enterprise and the Shiloh Review will go to press on time tomorrow, but will be shy a little news, due, the editorial and apology says, to Miss Fannie W. Edwards, proprietor of both papers, and Arthur W. Pope, her business manager, being married.

She is an Oberlin gradrate and a former school principal.

The marriage was delayed until last week's issues were gotten out and they returned from a honeymoon to Cincinnati and returned in time to solicit the advertising, comb the towns for news, set them up and go to press as though nothing out of the ordinary had occurred.

The editorial blames matrimony for the slackness of news but promise to make up for it in subsequent issues which will not have the past Dan Cupid interference.

A Simple Way To Remove Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

But where were the kids all this time? They were knocked down, jammed and pinched by the things that were slipping around the deck until they did not know which way to turn so they gave up trying to dodge things, and spent all their time in trying to keep together. In some way they both got fast between the slats of a chicken coop that came sliding by them and, after the crash and sinking of the vessel they found themselves standing in the chicken coop with their legs wedged between the slats floating in the rough and angry sea. The coop would be pitched from wave to wave as if it were a feather; or it would be rolled over and over, burying coop, kids, and all under the cold, salty water, only to rise again, with the kids sticking in it as if glued there

It was the only thing that saved them, for every one else had gone down with the ship, and they too would have gone but for their luck in getting fastened to something that would float and that the waves could not wash them off of. All around them the water was strewn with the debris from the sunken vessels, and the only other living thing in sight was a black cat sticking by her claws to a box of life preservers.

"Don't look Day," Night bleated. "There is a black cat, and I have always heard it was bad luck to see a black cat with her back hunched up at you. But I bet no black cat can give us any worse luck than we are having now."

"Mercy! hear her howl!" said Day. If we float near enough to hr she will jump on our chicken coop and scratch our eyes out, thinking we caused her all this trouble She will think it is bad luck to see a black goat as you do to see a black cat."

(Tomorrow you will hear what next befell the kids.)

BOY SCOUT NEWS

Much friendly divalry has been going on between the local Scouts-troups, especially troops 2 and 3. These troops have but recently been mustered from the Congregational and Methodist churches and the interest of the members of each troop is great On May 21, Troop 2 took the big end of the score, 11-6, from Troop 3 in a rather poorly played baseball game But on the 22nd, Troop 3 got revenge, by defeating Troop 2 in a tennis meet, taking 3 out of 4 sets. Austin, Patrick, Cook, and Grant, represented the Congregational troop, while Wurham, Keppes, Maddock, and Boynton, played well for Troop 3. On May 25, Troop 3 defeated Troop 2 in a hotly contested baseball game, the final score being 10-9 The game was featured by hard hitting by the winning team So far, Troop 3 has a slight edge in victories, but the teams are evenly matched, and many close contests are expected.

Pekzatian, Armenian diplo- tic representative at Tiflis. It reported the people of Alexan- opol received with acclaim the menian troops, rejoicing at be- g freed from the bolsheviki who d dominated the railways.

Prepare Greek Attack

Constantinople, May 28—Mos- n leaders in the vilayet of drianople, in European Turkey, sending their families to this y in anticipation of fighting en the Greeks attempt to occupy race. Christians, however, are permitted to leave their homes that region. Just before the clusion of the recent Turkish gress in Adrianople, the presid- officer declared an agreement defend Thrace had been reach- between the Turks and Bulgar- a.

A mass meeting was held at Ro- to, sixty miles northeast of Gal- oli on May 22; the keynote of dresses made there being: "We shall reduce Thrace to hes before leaving it to the eeks," it is said. Many of the eakers and prominent men in endance took the oath upon the ran to defend Thrace.

Mayor Jones May Try This Stunt In Elyria

Athens, Greece, My 28—Police- men of this city have an effective and rather unique method of curb- ing speding autoists. Officers posted along the principal streets carry planks, studded with long, sharp nails and when they see a car approaching at a rate they be- lieve is excessive, they drop the plank in front of the machine. If the car is speeding, it cannot be stopped in time, and as a result its tires are punctured, but if the machine is proceeding at a reason- able pace it can be stopped before the plank is reached.

The chief of police finds the sys- tem is cheaper than maintaining a motor cycle squad and has the additional advantage of making the capture of speeders comparatively easy.

CHAPMAN OBSEQUIES WERE LARGELY ATTENDED

Funeral services for the late H. P. Chapman, were held yesterday afternoon at the LaPorte home- stead, and they were largely at- tended by old comrades, patriotic order, neighbors and friends who in past had known and honored the deceased, and many of whom had enjoyed the hospitality always extended to them at his home.

A large tent had been erected under the beautiful trees adjoin- ing the Chapman home, and the casket placed therein almost com- pletely covered with a great wealth of the choicest flowers and the flag that Mr. Chapman loved so well.

The services were simple, but impressive. Rev. Mr. Kaley gave the prayer, and was followed by Judge H. C. Wilcox, who spoke feelingly of the life and good work of the fallen soldier. He called attention to many lovable quali- ties of Mr. Chapman, his patriotic services for his country, his love for his comrades of the G. A. R. and his fellowmen. He also said that Mr. Chapman was born with- in a mile and a half of the place where he died, and that all his life had been spent within that radius. His burial place beside his wife at the Butternut Ridge cemetery, was within a stone's throw of where both himself and wife went to school together.

After the service at the house taps were sounded and the G. A. R. then took charge. At the grave they conducted their ritual for the dead, and stood at salute while taps were again sounded. The old Soldiers were visibly af- fected for they loved Comrade Chapman, and many of them came from a distance in order to pay him their last respects.

CIRCUS PARADE LATE BUT WELL WORTH SEEING

Youngsters Thrilled With Mammoth Menagerie — Large Crowd Witnesses Pageant

The parade of the John Robin- son circus, while delayed until noon today, on account of the late arrival of the circus in this city proved well worth the long wait. It was, in fact, one of the largest circus parades seen here in years. And while the show has been on the road a long time, the equip- ment has been given such good care that the new look has not been lost from any portion of it. The horses, and there were scores of them, were well groomed and gaily caparisoned, while their rid- ers looked equally well cared for. The wagons were all shining and spotless, and the animals in them, lions, tigers, leopards, bears, in- cluding a big polar bear, a big hip- popotamus, a buffalo and other members of the animal family did not appear to be suffering for want of care.

Plenty Clowns

There never was such an array of clowns in a parade before. A grotesque figure was perched on top of every wagon, and the chil- dren along the route found no end of enjoyment in waving and shouting greetings to the "funny man," who apparently enjoyed it as much as they did.

Several thousand Elyrians and residents of the county who had assembled along the route of the parade, long before the first wag- on left the grounds, waited anx- iously until they were finally re- warded by the sight of a mounted man who rode on ahead to make sure the thoroughfare was clear of horses, which are not exactly obsolete as was testified to by the number driven in from the coun- try this morning by rural residents who "brought the children to see the circus." It was more than an hour later than the time advertis- ed, which was caused by the late arriva of the train.

Two Special Trains

The first section of the circus train reached Elyria shortly after 9:00 o'clock, being closely follow- ed by the second, and it was not very long after the first engine had stopped, that the railroad yards were massed with hustling, bustling men, who were endeavor- ing to make up the lost time and get the "Big Show" unloaded and on its way to the show grounds near the fair grounds.

As if by magic the many tents sprung up and it was with little difficulty and much system that the John Robinson circus, which ar- rived nearly four hours late, made up the time lost, gave its street parade as advertised and was giv- ing the first performance of the day when this paper went to press.

"It is only a matter of getting in- to town and getting the trains spotted for unloading," said one of the circus representatives this morning. "After that we are ready to go, for we are without question the most modern equip- ped organization on tour today, almost every one of our depart- ments being mostly handled auto- matically, thereby saving time, ex- pense and labor."

Big Menagerie

Tonight's performance starts at 8 o'clock. Doors open one hour earlier to give kiddies plenty of opportunity to see the big wild an- imal menagerie.

Store Windows, Artistically Decorated, Attract Many Last Evening in Third Window Trim Contest

The third annual window trim contest under the auspices of the Better Business Club opened aus- piciously last evening, and the streets were crowded with men, women and children, who visited each display.

There were not as many contes- tants, this year as formerly, but they were fully up to standard, and some of the windows showed originality and painstaking care on the part of those who designed them.

Opinions as usual differed as to who had the most attractive display and what the decision of the judg- es will be.

Special displays were made by Glade Thomas, The Style Center, Heidmyer Hardware Co., John Lersch & Co., Daniel Freese, Elyr- ia Hardware Co., Dachtler & Dac- htler, The Foster Fitch Co., Robin- son & Hancock, The Merthe Dry Goods Co., Day's Hardware, The Central Book Store, Tom Douglas, the Tailor; Outlet Clothing Co., The Leader Shoe Co., The Lewis Mercantile Co., Harry H. The fight against the sale of ci- garettes and also against sale of habit forming drugs, was embod- ied in a declaration of principles adopted by the convention.

Rev. H. K. Miller of Dayton, one of the delegates, declared the people of the United States had done wrong in subscribing to the tobacco fund for soldiers during the war, saying:

"We were made the dupes of the tobacco trust."

(By Associated Press)

Vera Cruz, May 28—Felix Diaz, who was reported yesterday to have assumed an attitude hostile toward the Huerta regime in Mex- ico, nas in fact, notified the au- thorities that he is friendly to the government.

Mexico City, May 28—Negotia- tions for the surrender of Fran- cisco Villa and all his followers to the new Mexican government head- ed by provisional President de la Huerta are under way and it is ex- pected that the Villistas will yield within the next few days, accord- ing to a statement made by Gen. P. Elias Calles today.

Gen. Calles refused to divulge the terms offered to Villa.

The government expects to have further information for the diplomatic corps after Herrero is questioned.

BLOCK BILLS UNTIL BONUS IS APPROVED

(By Associated Press)

Washington, May 28.—Support- ers of soldier relief legislation planned today to block all other maesures, hoping in that way to expedite consideration by the house, of the pending bill. Demo- crats and republicans joined in what they styled their "crusade" to bring action from the republi- can steering committee.

Leaders still planned to ask for a suspension of rules for six days beginning Saturday, during which time, they stated, the bill would be considered. Debate on the re- lief measure during the past few days has centered around the sup- posed democratic opposition, re- publicans charging repeatedly that such opposition exists and demo- crats emphatically denying that they have to vote against the measure, which comes up before the house.

TRY OVERRIDING OF WILSON'S PACT VETO

House and Senate Look for Vote Today But Predict Bill Will Fail to Pass

(By Associated Press)

Washington, May 28—An effort to override President Wilson's veto of the republican peace resolution failed today in the house. The vote was 219 in favor of over- riding the veto to 152 against or 39 less than the required two thirds majority.

Washington, May 28 — Though Republicans generally contended there was not a chance of overrid- ing the veto, the house expected to vote on the question of repassing the peace resolution, which the president yesterday sent back to congress unsigned with the state- ment that he could not agree to such a program because he consid- ered it would place "an inefface- able stain" on the nation's honor.

Leaders predicted that the house vote would fall short only a few votes of the required two thirds majority but said an attempt in the senate to override the vote would be hopeless. A record vote, however, had been planned in order that the matter might be disposed of promptly and in order that the records might show Mr. Wilson and not congress was to blame because the nation continues technically to be in a state of war with the central powers.

Both senate and house leaders for the most part refrained from discussing the situation further than to reiterate that the issues of the treaty must be fought out in the coming political campaigns un- less the president soon again sub- mits the treaty to the senate, con- templation of which he did not in- dicate in his veto message yester- day.

All Aboard For Zulu Land! Say Thirsty Elyrians

If an Elyria physician should prescribe as do the medicine men in South Africa, there would be a "don't push, don't crowd" line in front of every doctor's office in this city, from facts derived by the ad- dress of Dr. J. B. McCord who ad- dressed the members of the Ki- wanis club yesterday at regular luncheon meeting held in Hotel Andrus.

And from Dr. McCord's talk a Zulu can have all the wives he wishes by paying $500 to $1000 per wife. This he says proves a good investment as these women make gardens the products of which sustain the various huts in which they live and also net a prof- it for the husband.

The feature of the talk was the of whom there is one for each tribe but only one graduate christian doc tor for every million people, so with each dose of medicine goes one bottle of beer. The medicine, as analized by American chemists proved to be nothing but dead in- sects, chicken feathers and horse hair, but as one Kiwanian re- marked, "shucks, we could throw away the medicine."

Following the talk of the dis- tinguished physician, the members of the club program committee an- nounced that it had been found desirable to postpone the month- ly evening ladies night to Friday June 4th.

Says Railmen Are Against Mediation

Says Persons Representing Public on Board Are Unfamiliar With Facts and Incompetent to Judge Merits of De- mands

Chicago, May 28.—Repre- sentatives of the public on arbitration boards do not know enough about railroad labor problems to be fair, L. E. Sheppard, president of the order of railway conductors told the city club yesterday. He asserted that the railroad brotherhoods are unalterably opposed to arbitration boards on which the public is repre- sented.

"The public should be left out of the issue in dealing with the railroad problems," Mr. Sheppard said. "The layman knows so little about the actual problems of the situation.

"The reason the railroads are in their present fix is because they cannot get the men they need and because the men who do work for them are constantly subjected to violence and anaethema from in- dustrial workers whose work de- pends on these same men work- ing."

The public is more concerned in the stability of the railroads than in the cost of operating them, Mr. Sheppard said he was con- adding that this was shown by the same prices for the same commod- ities existing throughout the coun- try.

There will be no general strike as long as conservative labor lead- ers are in control, Mr. Sheppard asserted, adding that he did not be- lieve there would be a great finan- cial panic, because organized labor is a "safety valve that will not al- low the panic to come."

SEVERE TERMS IMPOSED ON TURKEY

(By Associated Press)

Washington, May 28—Terms of peace imposed upon the Turks, more rigorous than any previous summaries have indicated, were revealed to the Greek chamber of deputies last week, in Athens by Premier Venizelos, a summary of whose address was received today by the state department.

"The Turkish treaty," according to Venizelos, "accords to Turkey only local autonomy, which may in due time and should the people so determine, be converted into in- dependence."

In the small southeastern area of Europe, in which Turkey is left a last foothold, Venizelos declared her forces are limited by the treaty to 700 men.

Constantinople is retained by the sultan, the Greek premier ex- plained, with the reservation that he "will not violate the conditions of the peace treaty. Should such stipulations be violated, the pow- ers have the right to modify their decisions regarding Constantin- ople."

The Turkish army is limited to a militia of 35,000 men to be or- ganized by Europeans, 15 per cent. of the officers of which must be foreigners. Distribution of the mi- litia shall be dependent upon the advice and decision of the inter- allied commission.

EMPTY CHAIRS CAUSE OF GRIEF TO GRADUATES

For the first time in the history of schools in this section, the com- mencement exercises took the form of a memorial, but such prov- ed the case last evening, at Grafton.

The terrible accident which re- moved by death a member of the graduating class and its distressing effect upon another boy of this class, caused the abandonment of all class festivities, including the play to be presented and the lit- erary program.

Instead the graduates met for the presentation of their diplomas and were adressed by J. F. Burke of Elyria, whose talk was inspiring to the saddened group, who cast continually pitying eyes upon the vacant flower-wreathed chair from where the departed graduate would have heard his class ad- dress, also to the empty chair of the unfortunate lad whose unin- tentional act caused the tragedy.

Rev. Crafts awarded the dipl- mas, placing one in each empty chair, and delivered a heart-felt benediction.

COAL STRIKE DANGER GONE, SAYS LEADER

Ask Presidential Commis- sion For 27 Per Cent Wage Raise, Closed Shop and 8-Hour Day

Wilkesbarre Pa., May 28—Anth- racite mine workers will abide by any decision of the presidential coal commision to settle their wage dispute and all danger of a stop- page of work in the hard coal re- gion has passed. Thomas Kennedy president of district number 7 de- clared here today. He said that the miners in refusing yesterday to consider a strike as this time and in accepting a commission had adopted the only logical and honorable course.

Delegates who attended the in- district convention, which adjourn- ed yesterday, expressed satisfac- tion over their action, but were unanimous in asserting that if it had not been for the Lever act, they would have voted to declare war on the anthracite operators. Demands to be placed by the min- ers before the presidential commis- sion as outlined here by the lead- ers of the union, will be for a 27 per cent increase in wages, uni- versal eight hour day and complete recognition of the union by a closed shop contract.

The sub committee of operators and miners in charge of the nego- tiations will meet in Washington with Secretary of Labor Wilson on either Monday or Tuesday of next week to lay plans for presentations to the commision, which will ren- der its award in sixty days after starting hearing.

SCARLET FEVER CLAIMS YOUTH

The first death from scarlet fe- ver that has taken place in this city for many months occurred yester- day afternoon when Eleck Pax, five-year-old son of Mr. and Mrs. Frank Pax, fell a victim to the dread disease. A sister of the deceased is also ill with the same malady but is improving. Burial services will be held today and will be strictly private.

AIR PRICE COMMISSION IS NOT APPOINTED HERE

John Pfieffer, fair price com- missioner for Ohio, has not as yet pointed a commissioner for this nty, although he has done so several other counties through- the state.

Prosecuting Attorney Findley es that the matter of appointing fair price commission for this nty is entirely in the hands of State commissioner The prose or doubts whether a commission that character could really ac- plish anything. "They might" states "determine that the fair e of shoes should be a certain e a pair, but if the dealer want- ed to sell them for more, there was no way to prevent him from doing so. The same was true on other articles."

Mr. Findley said, however, that he had some correspondence with state officials regarding the price of sugar here. He had learned that recently Elyria dealers had been compelled to pay 30c per pound in Detroit, and that after paying transportation charges they had been obliged to sell at 35c per pound. He would do the best he could to prevent profiteering, es- pecially on commodities such as sugar.

WILFORD STILL LOOKING FOR EXPERT BEAR TAMER

Park Commissioner F. O. Wil- ford is still looking for a bear tam- er. Ever since his disastrous ex- perience when he failed in his at- tempt to move the two bears at Amusement park to their newly prepared quarters in Cascade park, he has been looking for a man with a hypnotist eye, the nerve of a hobo and the strength of a Samp- son to safely and securely transfer the unwilling bruins to their per- manent home.

He thought he had the problem solved when he learned that a cir- cus was coming to the city, but when it arrived the manager told him they had wild animals of their own to care for, and their time was too limited to attempt any bear taming at the present time.

Meanwhile the bears are keep- ing a watchful eye on anyone they suspect might have designs on their present home that they are perfectly satisfied with. Wilford is convinced that it's one thing to get a bear into a hole, but it's an- other thing to get him out.
